

Sootmaster® 1HP Furnace Vacuums

The Sootmaster® are the most durable and recognized line of furnace vacuums on the market today. The filter power system is completely foolproof. It includes a removable cloth filter and totally-enclosed disposable filter bag designed to recover more dirt than any other vacuum cleaner of its same overall size. Vacuum efficiency is maintained at its maximum level from the time the filter bag is installed to when it is filled.

features:

- **Motor Head Assembly**
Durable steel motor head equipped with 1 HP motor.
- **Holdown Clamp Chrome plated**
spring steel holdown clamps with non-marring tips ensure a positive vacuum seal.
- **Caster and Glidemobile Styles**
The caster models are equipped with three or four 2.5" ball bearing swivel casters, and the glidemobile vacuums have two 2.5" casters, two 8" rear wheels and chrome plated steel push handle.
- **Power Cord**
30 Ft, 3 wire grounded safety yellow line cord.
- **Includes:**
 - 14" Filter Frame
 - 14" Pancake Filter Cloth
 - 14" Hose, Cage
 - 27" Crevice Tool
 - Filter Bags, 5/pk
 - 10 Ft Rubber Lined Canvas Hose
- **Hose Fitting**
1.5" swivel hose connector fits the tank inlet and motor head exhaust fitting for blowing applications. It is positive locking with 360° swivel.
- **Cold Rolled Steel Tanks**
Have a hammermark exterior and epoxy interior. They feature reinforcing ribs to strengthen the tanks for handling higher waterlift and double roll over bottom seal to prevent leaking.
